

# Policy-RAG Sample Output Report

**User Query:**

What should I do if a data breach occurs?

**Retrieved Context:**

**Clause 5.1:** Any data breach must be reported immediately to the Data Protection Officer (DPO).  
**Clause 5.2:** The DPO will assess the impact and notify relevant authorities within 72 hours if required by law. **Clause 5.3:** Employees must cooperate fully in breach investigations and remediation activities.

**Model-Generated Answer:**

In the event of a data breach, employees are required to report it immediately to the Data Protection Officer (DPO). The DPO will assess the severity, handle notifications to regulators within 72 hours if required, and coordinate investigation and remediation efforts. Staff must fully cooperate during this process.
